

Rob Wood

Rob Qualified from Leeds Dental School in 2007. Having lived in Australia for 8 years, he recently returned to the UK to pursue his passion for education and leadership.

He has experience in all areas of general dentistry and his emphasis has always been on ethical and patient centred care . As well as completing certificates in Implantology and Endodontics, he was a provider of Clear Aligner therapy and Cosmetic dentistry when working in Australia. Due to his love of the outdoors, Rob also explored his interest in management and innovation by developing a chewable toothpaste tablet, which is sold across Australia.

Rob has been a Clinical Advisor for ClearCorrect since October 2022. He has gained a post graduate diploma in Clinical Education and is pursuing professional development in presenting and teaching.
