# teethtoday™

The Team Approach to Full Arch Treatment Options for Your Practice

Introducing the Teeth Today Full Arch course. This two-day course is a comprehensive dive into the team approach to full arch dentistry. Your team will learn how to treatment plan full arch cases, the steps involved in a full arch case from treatment planning, surgery, provisional and final restorations, and care and maintenance of the final prosthesis. Participants will observe a live patient full arch surgery and chairside provisional delivery, along with participation in a guided hands-on session. The program will also cover techniques on how to talk with patients about their full arch treatment options and come away with an understanding of the importance of approaching these types of treatments as a team. It is strongly recommended to attend this course with your implant treatment team.

- Learn how to approach full arch implant cases as a team
- Deliver patient case presentations and develop techniques to increase case acceptance
- Understand all of the steps to deliver a full arch treatment

SPEAKERS
Dr. Ryan Lewis
Dr. Giles Horrocks
