## For Whom

Do you have several years of professional experience as a dentist? And do you want to expand your knowledge and improve your expertise in intra oral implantology? This is your chance to learn from the best experienced lecturers in the field. Organised by the oldest University in the Netherlands, where all the kings and queens of the Netherlands studied 🏰

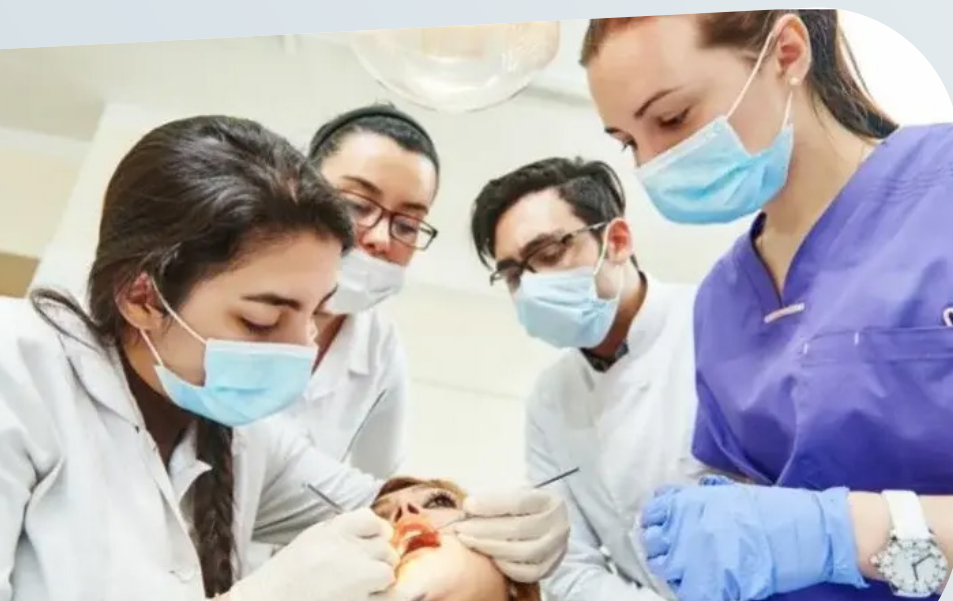

Expert lecturers offer nine days of comprehensive training with individual guidance. As a result you will have sufficient skills and knowledge to excel in this exiting field by the end of the programme.

The programme is intensive. During the course you will be introduced to state-of-the-art techniques and work with the most advanced equipment and technologies. Each module will also provide you with an up-to-date overview of best practices.

For this programme we invite dentists from all over the world. Together, you will be part of a diverse and dynamic community of people, with whom you can exchange ideas and build lasting professional relationships.

We welcome you to the Netherlands to participate in this unique and rewarding educational experience. Your first step towards confident and competent implantology, which will definitely change the lives of your patients.

- Upon completion you will receive the Basic Leids University Certificate in implant Dentistry.
- Location:  
Fletcher Wellness-Hotel Leiden  
Bargelaan 180  
2333 CW Leiden  
[www.wellnesshotelleiden.nl](http://www.wellnesshotelleiden.nl)
- Get acquainted with Dutch culture in the meantime.
- A solid foundation for the advanced implantologists modules.
- Study group with several mentors, each specialised in their field of study.
- Course conducted in English.
- Costs include accommodation, meals, courses and materials.
- Price: € 14.995,-

## Timetable

### Sunday September 22nd

Arrival at the hotel.  
Meeting with participants and welcome dinner.

### Monday September 23rd

Live surgery. Osseointegration as the basis for successful treatment.  
What are the best bone conditions?

### Tuesday September 24th

Implantology: A comprehensive introduction to the field.  
What's involved in intra oral implantology?

### Wednesday September 25th

Indication: The foundation for your treatment plan. What is your patient's condition? Are you going to place implants or not?  
One, two or more implants, one-stage or in two-stages?

### Thursday September 26th

Incision and suturing techniques. Try it yourself.

### Friday September 27th

Prosthetics: What solutions can you offer the patient?  
Crown, bridge or bar? Screw-retained or non-screwed?

### Saturday September 28th

Implant placement: Under the eye of an experienced implantologist, place your implants on a patient yourself.

### Sunday September 29th

Digital techniques in implantology: Try it yourself.

After successful completion of this course, an experienced implantologist will be available to assist in the practice with the following treatments.
