

# ZYGOMATIC IMPLANT COURSE

## ZAGA COURSE - Cadaver Edition

THE NEW YORK CENTER  
FOR ORTHOGNATHIC  
AND MAXILLOFACIAL SURGERY

New York City  
October, 16<sup>th</sup> -18<sup>th</sup>, 2024

This intensive 3-day course is drawn from our 25+ years of experience with zygomatic implants in the rehabilitation of the extremely resorbed maxilla according to Zygoma Anatomy Guided Approach (ZAGA).

The course is designed for surgeons who want to see more complex zygomatic implant cases and want to learn about the evidence-based ZAGA method that consists series of techniques, materials, and protocols designed to achieve predictable long-term results and prevent surgical and prosthetic complications.

The benefits and limitations of different surgical techniques, including intra and extra sinus approaches, will be discussed. Detailed insights into Dr Carlos Aparicio's ZAGA philosophy and the ORIS success code will be provided.

### OUR LECTURERS:

**Dr. Carlos Aparicio**  
MD, DDS, MSc, MSc, DLT, PhD

**Dr. Jay Neugarten**  
MD, DDS, FACS

# ZYGOMATIC IMPLANT COURSE

## ZAGA COURSE

New York City  
October  
16<sup>th</sup>- 18<sup>th</sup>, 2024

### OUTLINE:

- Acquire evidence-based knowledge on the use of advanced Zygomatic Implant treatment in different anatomical situations (ZAGA 0- 4).
- Develop a working knowledge of different surgical techniques, their benefits, and their limitations, including intra and extra-sinus approaches.
- Gain an evidence-based understanding of the ZAGA technique and the ORIS Success code for achieving predictable and successful outcomes
- Participate in interactive Zygomatic Implant treatment planning discussions with the Faculty.
- Develop hands-on experience in placement and restoration of the new Straumann-ZAGA Round and Straumann-ZAGA Flat Zygomatic Implants developed by Dr Carlos Aparicio.
- Practice placing the new ZAGA-Straumann zygomatic implants on 3D models of real patients.
- View and discuss the surgeries performed on the patients from 3D models previously received.
- Learn how to manage and prevent Zygomatic Implant complications
- Surgical rehearsal on the dental 3D model, corresponding to your cryopreserved human head.
- Perform surgery on a cryopreserved human head.

### NECESSARY REQUIREMENTS:

- Oral Surgeon; Maxillofacial Surgeon; Implantologist; Periodontist or Prosthodontist.
