

IN ASSOCIATION WITH THE ACADEMY
OF MODERN IMPLANT DENTISTRY

Academy of Modern Implant Dentistry: Level 1: Fundamentals of Implant Surgery

Level One gives attendees two days of didactic training learning how to safely and predictably place implants in their own practice focusing on single-unit to three-unit bridges in the posterior. The lecture also covers the importance of soft tissue, anatomy and histology for long-term implant success, implant prosthetic options, sinus bumps, and single socket preservation with buccal wall repair. The third day of the course, each attendee will place between 3-5 implants on live patients covering all aspects discussed in lecture.

OBJECTIVES

- Understand implant surgical protocols
- Determine patient screening and consultation
- Understand anatomy and histology for implant treatment and long-term success
- Learn socket preservation and buccal wall repair
- Learn proper implant prosthetic selection in the posterior
- Interpret radiology for implant surgery
