# ITI Masterclass: "Prevention and Management of Peri-Implant Diseases"

## Join Our ITI Masterclass

We are excited to invite you to an exclusive ITI Masterclass on "Prevention and Management of Peri-Implant Diseases" taking place on **December 12, 2024**. This comprehensive one-day event will cover critical aspects of peri-implant disease management, focusing on both mucogingival management and the treatment of peri-implantitis.

## Why attend?

This Masterclass, led by renowned experts from KULeuven and UCLouvain, is designed for dental professionals who want to enhance their understanding and skills in the prevention and management of peri-implant diseases. You will gain valuable insights into the latest research, evidence-based practices, and innovative techniques to improve patient outcomes.

## Objectives

- To provide a thorough understanding of mucogingival management around implants, including the latest strategies and techniques for maintaining peri-implant tissue health.
- To explore advanced treatment approaches for peri-implantitis, focusing on early diagnosis, effective intervention, and long-term maintenance.
- To offer hands-on experience through practical workshops, allowing participants to apply new knowledge and skills in a supportive and interactive environment.
- To create a platform for networking and exchanging ideas with peers and experts in the field of implantology.

# Course details

## Program

08.30 - 10.30	Mucogingival Management (KULeuven)
