A unique and comprehensive training program designed to enhance the skills and knowledge of dental professionals and teams in aligner therapy. This course is led by industry experts from DDS RDH and OM on Clear Aligner application and Education, offering full practice training opportunities to gain invaluable insights into effectively communicating the benefits of aligners to patients, converting their interest into successful treatment plans, and streamlining patient workflow. Delve into the intricacies of digital features, Clear Aligner protocols, hands-on exercises, and case study support, all designed to deliver exceptional patient outcomes. Engage in interactive sessions, encouraging collaborative learning and knowledge sharing among peers, empowering your entire practice to embrace the future of aligner therapy with clear aligners.

OBJECTIVES FOR DENTISTS

- Evaluate case complexity, customize aligner parameters, and integrate interdisciplinary approaches.
- Apply clinical features and auxiliaries to develop comprehensive treatment plans for complex cases.
- Conduct consultations to educate patients on aligner therapy benefits and increase case acceptance.
- Streamline patient workflows, including diagnostic records, treatment planning, and financial arrangements.
- Implement effective scheduling strategies and collaborate with the clinical team for seamless aligner therapy delivery.
- Enhance patient experiences to drive practice growth through positive referrals and satisfaction.
