COURSE CONTENT

LEVEL UP YOUR DESIGN SKILLS AND KNOW-HOW IN THE DIGITAL FIELD

In our upcoming 2-day course we will focus on planning prosthetic solutions completely digitally. This hand on course is suitable for everyone starting with the digital workflow or who has already acquired basic knowledge.

Digital process

Participants will get to know the digital process from scanning, designing, milling and printing at our MedentiTEC Training Center in Calw.

IPS & MPS

We will focus on the IPS & MPS Implant libraries which are essential part of planning implant prosthetic solutions digitally.

Digital workflow

The course will cover most aspects of digital workflow which are essential for a modern dental laboratory.

Custom abutment

Each participant will scan and design their own "Custom Abutment" in exocad with the unique integration and consideration of tips and tricks from our experienced dental technician in this field, Markus Menczynski
