8:00a – 5:00p MDT  
6886 S Yosemite St, Suite  
#201, Centennial, CO 80112

\$1,495 for Dental Professionals

## Course Details

8 CE CREDITS

Ready to modernize your restorative workflow with cutting-edge digital tools? In From Tooth Borne to Implant Borne: Mastering the MIDAS Restorative Workflow, dental professionals will learn to prepare teeth, scan with the Sirios intraoral scanner, and design high-quality restorations using intuitive CAD software.

This hands-on course also covers operating and troubleshooting the MIDAS 3D printer, finishing and cementing printed restorations, and selecting ideal cases for long-term success. Walk away with a fully integrated workflow that boosts efficiency, elevates outcomes, and transforms your restorative practice.
