EVOLUTIONS IN DENTAL IMPLANT DIGITAL WORKFLOWS: A LIVE SURGERY OBSERVATION COURSE

DESCRIPTION

This live surgical observation course will introduce the implant team to innovations in digital implant dentistry from surgical treatment planning to simplified restorative protocols. Participants will learn about simplified implant workflows applicable to the modern day implant practice.

OBJECTIVES

- Maximizing implant choice for site specific care while not compromising prosthetic connectivity
- Live single tooth placement with digital workflow for immediate load
- New solutions for contoured healing, emergence profile, and scanning capabilities
- Live full arch immediate load surgery and prosthetics
- Restorative and laboratory demonstration for single tooth immediate load and full arch provisional fabrication
- Demonstration of multiple immediate full arch fabrication options including denture conversion, photogrammetry systems, and same day milling and printing capabilities
- Smile design software

APRIL 16-17, 2026

LOCATION

New York Center for Orthognathic and Maxillofacial Surgery (NYC) New York
501 Madison Ave., 18th Floor
New York, NY 10022

TUITION

\$995 Clinicians
\$595 Staff - use code **Staff2026**

TARGET AUDIENCE

This course is for clinicians who are new to or less experienced in single/multi and full arch immediacy procedures and would like to learn ways to streamline these cases as well as integrate the digital workflow.

Speakers

DR. JAY NEUGARTEN

Dr. Neugarten is a board certified oral and maxillofacial surgeon. He is a valedictorian graduate of the Columbia University School of Dental and Oral Surgery. He completed his residency in Oral and Maxillofacial Surgery at North Shore University-Long Island Jewish Medical Center and earned a medical degree from the Stony Brook School of Medicine. Dr. Neugarten is a fellow of the American College of Surgeons. He is an associate clinical professor at both New York Hospital Cornell-Weil Medical Center and North Shore University-Long Island Jewish Medical Center. He is a nationally and internationally known recognized specialist in oral and maxillofacial surgery, whose areas of expertise include zygoma implant reconstruction, full arch implant solutions, complex implant and bone-grafting, corrective jaw surgery, TMJ surgery and distraction osteogenesis. He is zygomatic implant expert and leading surgeon of the ZAGA Center NYC. Dr. Neugarten has published numerous articles, book chapters and lectures nationally and international on many maxillofacial topics related to zygomatic implants, full arch implant reconstruction, orthognathic surgery and airway management.

DR. ANTHONY SALLUSTIO

Dr. Anthony Sallustio has been practicing prosthodontics and maxillofacial prosthetics in central New Jersey since 1996. He devotes his professional time to private practice, hospital-based dentistry, and dental education. After completing a degree in Biology at Seton Hall University, he attended the State University of New York, School of Dental Medicine. A four-year postgraduate training program was followed to complete his Prosthodontic, Maxillofacial Prosthetics, and Dental Oncology specialties
