

ZAGA CADAVER COURSE

Zygomatic & Pterygoid Implants

Barcelona, Spain

AI-Powered Simultaneous Translation Available in All Languages

- January 27–30, 2026 | Barcelona, Spain (Winter)
- June 9–12, 2026 | Barcelona, Spain (Summer)
- September 1-4, 2026 | Barcelona, Spain (Autumn)

This comprehensive 4-day course builds on over 25 years of expertise in using zygomatic implants to restore severely resorbed maxillas, following the Zygoma Anatomy-Guided Approach (ZAGA) developed by Dr. Carlos Aparicio. With the addition of a dedicated theoretical and practical module on pterygoid implants, participants gain a complete overview of remote anchorage solutions.

The course is designed for clinicians of all levels who want to strengthen their experience with complex cases while deepening their knowledge of the evidence-based ZAGA method.

Attendees will explore the advantages and challenges of different surgical techniques, including both intra- and extra-sinus approaches. The program also provides a detailed examination of Dr. Aparicio's ZAGA philosophy, the ORIS success code, and the pterygoid implant technique—ensuring a truly comprehensive learning experience.

OUR LECTURERS

Dr. Carlos Aparicio
MD, DDS, MSc, MSc, DLT, PhD

Dr. Adi Lorean

ZAGA CADAVER COURSE

Zygomatic & Pterygoid Implants

AI-Powered Simultaneous Translation Available in All Languages

Barcelona
2026

OUTLINE

- Cultivate a comprehensive understanding of different **surgical methodologies**, evaluating their respective advantages and drawbacks, as well as **intra-sinus** and **extra-sinus techniques**.
- Acquire **scientific** and **clinical insights** into the application of advanced ZAGA Zygomatic Implant treatments across diverse anatomical conditions (ZAGA 0-4).
- Gain an **evidence-based** understanding of the **ZAGA concept**, coupled with the **ORIS Success Code**, to ensure predictable and successful outcomes.
- Explore the intricacies of prosthetic rehabilitation, focusing on the **immediate loading** of **zygomatic** and **pterygoid implants**.
- Engage in **hands-on practice** with the cutting-edge **ZAGA-Straumann zygomatic implants** and **pterygoid implants**, using 3D models from real patients, including one that corresponds to a cryopreserved human head-simulating **real surgical conditions**.
- **Review and critically discuss surgeries** executed on patients.
- Master the skills necessary to **manage and mitigate complications** associated with zygomatic and pterygoid implants.
- Delve into the **anatomical nuances** of the **pterygoid** and **zygomatic regions**.
- Familiarize yourself with established **surgical protocols** for the **successful placement** of zygomatic and pterygoid implants.
- Acquire the expertise to diagnose and formulate treatment plans, utilizing **DICOM images** of a cryopreserved head provided in advance.
- Participate in the **cadaver hands-on training**, with one quadrant allocated per participant.

ZAGA CADAVER COURSE

Zygomatic & Pterygoid Implants

AI-Powered Simultaneous Translation Available in All Languages

Barcelona
2026

PROGRAM:

Day 1

08:00 - 17:30 H

- Theory - ZAGA Concept
- Surgical Procedure
- Implant System Intro
- 3D Models Hands-On

Day 2

08:00 - 17:30 H

- Theory - ZAGA Concept
- Soft Tissue Management
- 3D Models Hands-On

Day 3

08:00 - 17:30 H

- Pterygomaxillary Implants
- Zygomatic Complications
- The ZAGA Concept
- 3D Models Hands-On

18:30 - 22:00 H

- Social Event

Day 4

08:00 - 13:00 H

- Hands-on cadaver cryopreserved heads
- Course final remarks

Barcelona
2026

PAYMENT DETAILS:*

Course Edition: *January 27–30, 2026 | Barcelona, Spain (Winter)*

- General Admission: 6,100 €
- Certified ZAGA Center (15%): 5,185 €

Course Edition: *June 9–12, 2026 | Barcelona, Spain (Summer)*

- General Admission: 6,500 €
- Early Bird (10%): 5,850 € (until January 31st, 2026)
- Certified ZAGA Center (15%): 5,525 €

Course Edition: *September 1-4, 2026 | Barcelona, Spain (Autumn)*

- General Admission: 6,500 €
- Early Bird (10%): 5,850 € (until May 31st, 2026)
- Certified ZAGA Center (15%): 5,525 €

*All course fees include 3x lunch, coffee breaks, and a dinner with cocktails during the social event.

IMPORTANT: All participants will receive a certificate corresponding to 32 hours of CE credit, plus 5 more hours of credits for those who complete the pre-course activity within the established time frame.
