

2025-26 EUROPE

MASTER CLINICIAN DIPLOMA PROGRAM in IMPLANT DENTISTRY

The Master Clinician Diploma Program in Implant Dentistry, founded by gIDE Institute in 2006, is a 1-year modular program blending evidence-based practices with cutting-edge clinical techniques. Taught by top global implant experts, it builds confidence in treating single, partial, and fully edentulous patients through hands-on, lectures, live surgeries, treatment planning sessions and case presentations. Since its launch, this program has helped dental professionals around the world take their careers to the next level—whether in clinical practice, academia, leadership, or community impact.

“ Having attended numerous certification programs ranging from the elementary to the advanced, I entered the gIDE program with certain expectations. I have been exceptionally impressed with the course content and the quality of the educators. I have taken more from this course than any of my previous courses combined. Well done, gIDE. ”

- Dr. Nigel Reynolds, Europe MP - Bristol, England
