**25
CME-
Points**

**LIVE-SURGERIES
HANDS-ON TRAINING
DIGITAL WORKFLOWS**

POWERED BY

**Berlin
Dental
Hub**

PARTNERED WITH

 **straumann**

A NEW ERA IN DENTAL EDUCATION

We are establishing the **Cyborg Dentistry Summit** as a recurring, international course format — developed together with Straumann and hosted at the Berlin Dental Hub.

OUR FOCUS:

Minimally invasive concepts, immediacy, and fully digital workflows. Delivered authentically in a real clinical environment, far beyond the limitations of traditional hotel courses.

GOAL:

To create a best-in-class education experience that grows, scales, and inspires clinicians across Europe.

WHAT TO EXPECT AT THE SUMMIT

- 3 days of immersive learning in Berlin's most advanced clinical training environment
- 30 to 50 participants per summit
- 3 live surgeries with world-class clinicians:

Andre Chen, DDS, MSc., PhD
Lisbon

DDr. Lukas Salbrechter
Innsbruck

Mischa Ommid Steude, MSc. MSc.
Berlin

REAL CASES. REAL SURGERIES. REAL INNOVATION.

MINIMALLY INVASIVE | IMMEDIACY | DIGITAL WORKFLOW

HANDS-ON CIRCLE TRAINING:

Small, rotating groups of 10–12 dentists train closely with each tutor in parallel sessions.

HANDS-ON MODULES INCLUDE:

cyborg dentistry – be creative and think biologically

digital planning with coDiagnostiX® & Smilecloud®

socket shield technique and socket seal butment

augmentation techniques on models with MaxGraft® Plus

biological and surgical aspects of immediate implant placement

surgical guide design and 3D printing (Pro2)

the iexcel-line from c to x

PRF and Vitamin D3 protocols

guided implantology vs. brain guided

OUTCOME:

Participants leave with real, clinic-tested workflows ready to implement in their own practice.
